

For Smartphones and PDAs

Thursday, 09 August 2007

Last Updated Tuesday, 14 August 2007

ProfileMD Classic is a free personal health record that can give you instant access to the medical history of you and your entire family in case of emergencies, physician office visits, or anytime you need the details of you or a family member's medical history from your Smartphone or PDA.

Log in for a free registration code for ProfileMD Classic. [Download Free Software](#)

ProfileMD Classic can run on WindowsMobile with StyleTap! A study published in JAMA reports missing information has the potential to delay care or require additional testing in 13.6% of office visits.
